AGI ... the better way
to meet your bulk liquid
containment needs**

**the
BETTER
WAY**

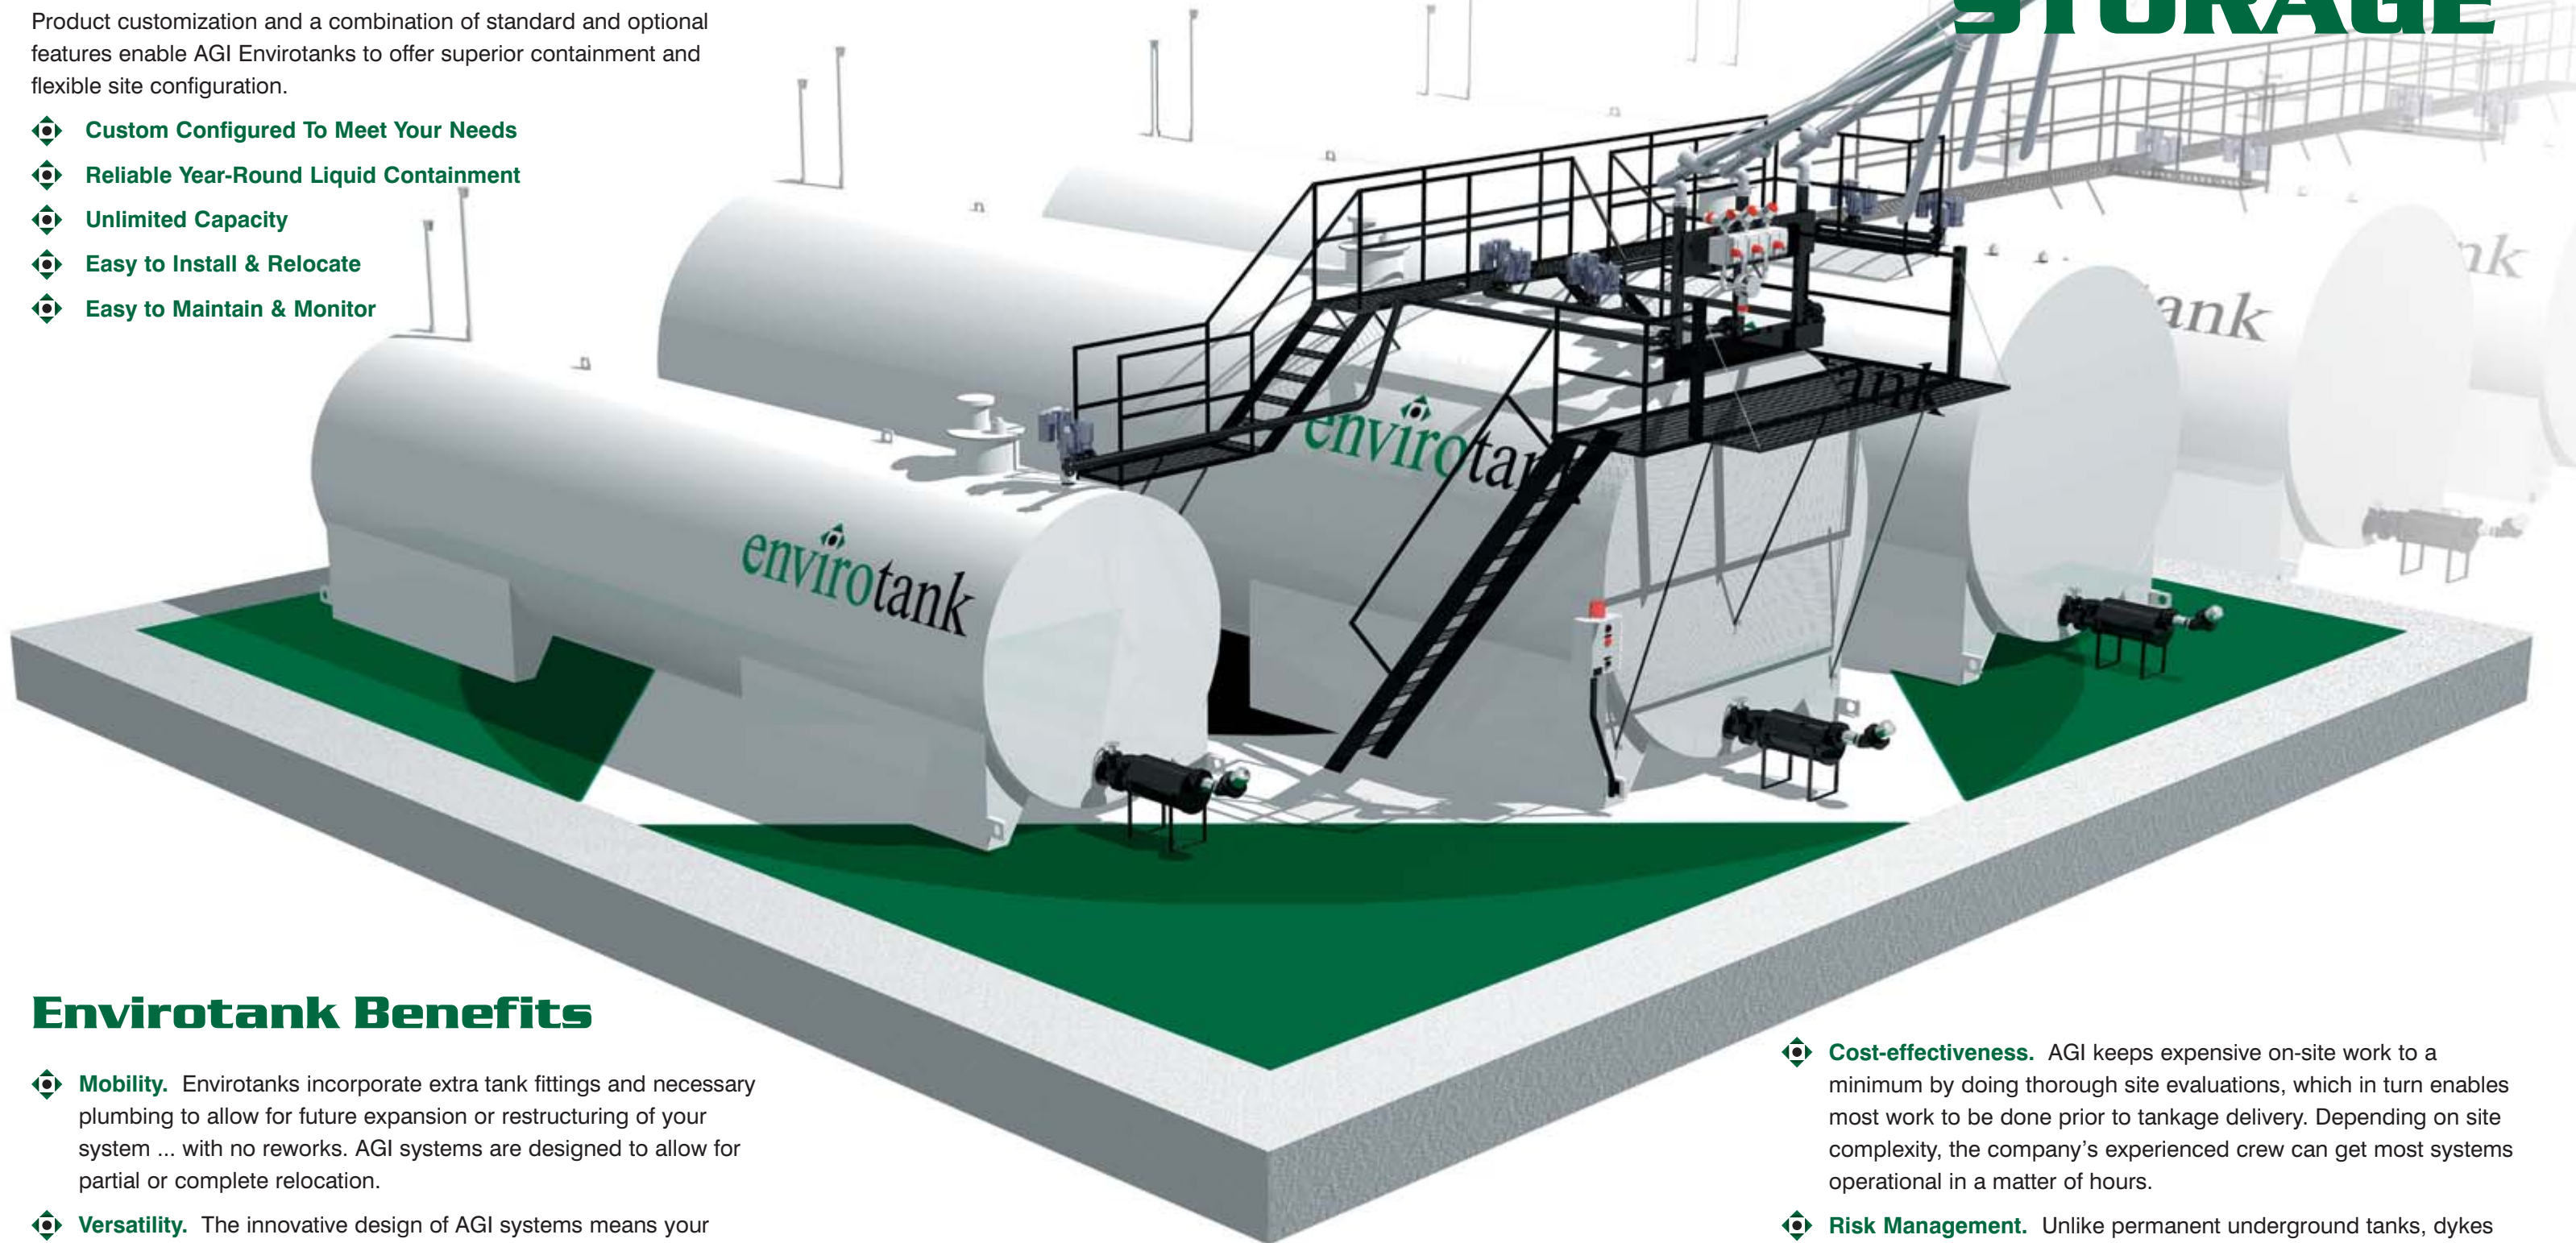

envirotank

Product customization and a combination of standard and optional features enable AGI Envirotanks to offer superior containment and flexible site configuration.

- ◆ Custom Configured To Meet Your Needs
- ◆ Reliable Year-Round Liquid Containment
- ◆ Unlimited Capacity
- ◆ Easy to Install & Relocate
- ◆ Easy to Maintain & Monitor

AGI Mobile Tank Systems are one of the most versatile and cost-effective alternatives to standard bulk containment & storage sites. AGI designs and manufactures systems to meet specific site needs, with storage capacity ranging from 1,000's of litres to 100's of thousands of litres.

MULTI-TANK LIQUID STORAGE

Envirotank Benefits

- ◆ **Mobility.** Envirotanks incorporate extra tank fittings and necessary plumbing to allow for future expansion or restructuring of your system ... with no reworks. AGI systems are designed to allow for partial or complete relocation.
- ◆ **Versatility.** The innovative design of AGI systems means your site can be expanded to meet increased needs, partially dismantled in response to reduced needs, or moved to another location entirely ... all at an affordable cost.

- ◆ **Cost-effectiveness.** AGI keeps expensive on-site work to a minimum by doing thorough site evaluations, which in turn enables most work to be done prior to tankage delivery. Depending on site complexity, the company's experienced crew can get most systems operational in a matter of hours.
- ◆ **Risk Management.** Unlike permanent underground tanks, dykes and retaining walls, Envirotanks are both moveable and reuseable. That means your investment is not lost when your site is dismantled or relocated, offering better risk management of your investment.

Please Note: illustrations are examples only. Since each Envirotank is customized to meet customer specifications, the size and configuration of actual tanks may vary.

the **BETTER** **WAY**

AGI not only custom manufactures tanks, they customize their services to meet individual needs.

- ◆ AGI works with your planning & installation contractors to deliver the most efficient system for your site.
- ◆ AGI backs all its products with complete customer support services, including: site evaluation and configuration, decommissioning, installation and operational start-up by an experienced crew.
- ◆ AGI Envirotanks meet all environmental, fire and ULC, UL or API standards.*

AGI Mobile Tank Systems are the most reliable, cost-effective means of bulk containment and storage.
