

envirotank

Recent environmental regulations have made containment a key issue in the mining sector. For superior on-site liquid containment and risk management, above-ground Envirotanks from A.G.I. are the affordable solution.

- ◆ **Meet API, ULC or UL Standards**
- ◆ **Reliable Year-Round Liquid Containment**
- ◆ **Environmentally Responsible**
- ◆ **Easy to Install**
- ◆ **Mobile ... Easy to Relocate**
- ◆ **Easy to Maintain & Monitor**
- ◆ **Turn Key Packages**
- ◆ **Cost Less to Install Than Underground Tanks**

Customized Service

A.G.I. backs all its products with complete customer support services. This means they not only customize tanks, they customize services to meet your specific needs, including:

- ◆ experienced consulting at the site development stage
- ◆ working with environment and fire marshals to prepare a compliance program and time table for your site
- ◆ site evaluation and configuration
- ◆ site preparation including decommissioning of underground (UST) tanks
- ◆ site installation and operational start-up by our experienced crew.

Please Note: illustrations are for informational purposes only. Envirotank is customized to the size and configuration of your site.

A.G.I. Envirotanks are custom manufactured to your specifications to meet a wide range of on-site configurations. The innovative, above-ground design eliminates the possibility of underground leakage or ground contamination ... which eliminates your risk of incurring costs to clean up contaminated areas.

ON-SITE LIQUID STORAGE

Features

- 1 High Volume Submersible Pumps
- 2 Spring-loaded Load Arms
- 3 Pumping Control Panels
- 4 Electronic Level Monitoring
- 5 Internal Product Heaters
- 6 Discharge and Load Line Containment
- 7 Full Length Skid
- 8 Full Access Platform with Safety Railings

Examples only. Since each tank is custom manufactured to meet customer specifications, actual tanks may vary.

The word "enviro" is in green and "tank" is in black. A stylized white tank with a black dot on top is positioned above the letter 'i' in "enviro".

the
BETTER
WAY

Responsive service is part of A.G.I.'s corporate commitment to ensuring customers' systems, once installed, incorporate the latest technology and function safely and cost-effectively over the long-term.

A.G.I. customizes its products and services to meet the individual needs of its customers. All Envirotanks are:

- ◆ manufactured to meet environmental, fire and ULC, UL or API standards *
- ◆ built to custom or standard specifications
- ◆ designed to offer cost-effective risk management
- ◆ easy to install & move

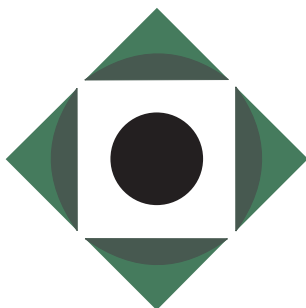

A.G.I. Envirotanks are one of the most reliable and cost-effective means of on-site liquid containment available.

Call us toll free to discuss your needs: 1-800-746-6646.

Manufacturer's Note:

A.G.I. manufactures a wide range of products to meet a variety of tankage requirements. Ongoing improvements in product design may result in changes to the dimensions & features listed. The Manufacturer reserves the right to make such changes without prior notice.

* Final acceptability of any A.S.T. device or site is determined by local fire and/or environment authorities.
