Enviro tanks from  
AGI ... the better way  
to meet a wide range of  
liquid containment needs

**the  
BETTER  
WAY**

# envirotank

Looking for reliable, efficient, safe and cost-effective liquid containment? Vertical Envirotanks from AGI are the affordable alternative to underground tanks, ground dykes or liners.

## Envirotank Benefits

AGI is a leading manufacturer of above-ground storage tanks for use in every major industry - oil & gas, mining, transportation, construction, waste management, bulk and retail storage and service, and more.

Envirotanks provide environmentally responsible containment for a wide range of hazardous substances.

### Vertical Envirotanks:

- ◆ cost less to install
- ◆ are easier to maintain and monitor
- ◆ can be relocated to meet changing needs

## VERTICAL

## AGI Service

Envirotanks are manufactured to meet individual customer specifications, as well as all required environmental, fire and API, ULC or UL standards. And AGI backs its products with complete customer support services - from site evaluation and configuration, to site decommissioning, installation and operational start-up.

AGI works with your planning and installation contractors to deliver the most efficient and cost-effective system for your needs. Envirotanks are the better way to meet your on-site containment requirements.

## Standard Features

- ◆ fully enclosed primary tank, with breach containment (110%)
- ◆ 20" top manway if required
- ◆ emergency vent (6" to 10")
- ◆ 1" water draw-off for primary and secondary
- ◆ lifting lugs
- ◆ sump vent for primary and secondary
- ◆ dipstick with corresponding dip chart
- ◆ parts manual
- ◆ 26 litre lockable fill box complete with drain

- ◆ spare coupler
- ◆ all warning decals
- ◆ sandblasted SSPC6

## Stair Options

- ◆ static stair with handrail
- ◆ folding stair with handrail and platform
- ◆ vertical ladder with safety cage

**Please Note:** illustrations are examples only. Since each Envirotank is customized to meet customer specifications, the size and configuration of actual tanks may vary.

## Optional Features

- ◆ pump platform with spill containment
- ◆ pump stand
- ◆ pump cabinet
- ◆ level gauge and overfill prevention
- ◆ meters, keylocks and cardlocks
- ◆ lighting and electrical packages
- ◆ submersible pumps
- ◆ suction pumps
- ◆ bottom fill or remote top fill options
- ◆ hose reels and hose retractors
