

A.G.I. envirotank

Generator Skid Tanks

AGI can design and build an Envirotank for your generator & boiler applications.

Envirotanks to be mounted as part of a skid package or as day tanks. Do not accept lengthy delivery dates for imported tanks.

If we do not have your tank in stock, we will build and deliver an Envirotank to your specifications.

Standard Features

-  ULC labeled & 110% containment
-  Lift lugs & forklift pockets
-  4" fill port c/w fill box, 2" camlock & drop tube
-  2" secondary containment vent & inspection port
-  3" emergency vent
-  1/2" or 3/4" fuel pick-up c/w suction tube
-  1/2" or 3/4" fuel return
-  1 1/2" coupler for fuel level gauge
-  1 1/2" coupler for fuel level switch
-  Sandblasted to SSPC-SP6 (brush blast)
-  Rust resistant epoxy primer & enamel top coat

Dimensional Chart

Capacity Litres	Capacity Imp Gallons	Length	Width	Height	Weight
1,523 L	335 gal	59"	33"	56"	lbs
1,818 L	400 gal	71"	31"	60"	lbs
2,273 L	500 gal	88"	31.5"	56"	lbs
