

Horizontal Vacuum

ULC S601 Vacuum Monitored Horizontal Envirotank

- 300 degree containment
- 100% containment

Standard Features

- ULC-S653-94 label
- 110% containment (no dike required)
- Skid mounted
- Lifting and grounding lugs
- Normal venting for both primary and secondary tanks
- Emergency vent
- 4" fill coupler
- 4" discharge coupler
- 4" spare coupler
- Water draw off in secondary containment
- Water draw off in primary tank
- Dipstick with corresponding dip chart
- Parts list and maintenance manual
- Standard ULC, tank content and warning decals
- Sandblasted to SSPC-SP6 (brush blast)
- Rust resistant epoxy primer
- Enamel white top coat

Optional Features

- Bottom fill & top fill options
- Discharge and pumping system options
- Double bulkheads for multi compartments
- Level gauges and overfill prevention
- Ladder, stairs and catwalks
- Pump platforms and pumpstands
- Cabinets
- Skid options

Dimensional Chart
