

A.G.I. envirotank

Rectangle Waste Oil Envirotank

rectangle Envirotank, manufactured by AGI, is a safe, clean and conscientious method to store waste oil.

Your rectangle Envirotank can be placed neatly in the corner of any commercial yard.

These tanks were conveniently designed so they would fit in the back of a pick up truck.

Standard Features

-  ULC labeled
-  110% containment
-  Square waste oil dump box c/w mesh screen (for draining filters)
-  2" camlock and suction tube contained in dump box for product removal
-  Normal vent for primary and secondary tanks.

-  Two 2" spare couplers (for future waste oil transfer system)
-  Lift lugs
-  Sandblasted to SSPC-SP6 (brush blast)
-  Rust resistant epoxy primer
-  Enamel top coat

Optional Features

-  Transfer System

Capacity	Length	Width	Height	Weight
1,250 L	65.5"	48"	31.5"	780 lbs
