OIL FIELD

**Envirotanks from
AGI ... the better way
to meet a wide range of
liquid containment needs**

**the
BETTER
WAY**

envirotank

Double Wall Envirotank

Envirotank Advantages

- ◆ No dikes, liners, gravel or excavation
- ◆ Requires 50% less installation area as opposed to a single wall tank with a dike
- ◆ Quick & easy to install and relocate
- ◆ One tank relocation pays for the extra cost of a double wall tank
- ◆ 110% containment
- ◆ Turnkey installation
- ◆ AGI's unique inside cabinet makes our tanks easy to transport
- ◆ Meets **Guideline 55** and ULC standards.

AGI Envirotanks are custom manufactured to your specifications to meet a wide range of on-site configurations. The innovative, above-ground design eliminates the possibility of underground leakage or ground contamination ... which eliminates your risk of incurring costs to clean up contaminated areas.

OIL FIELD

Please Note: illustrations are examples only. Since each Envirotank is customized to meet customer specifications, the size and configuration of actual tanks may vary.

Features
