BETTER  
WAY**

# envirotank

The innovative design of AGI Envirotanks makes them ideal for retail service station applications. Product customization and a combination of standard and optional features offer superior containment and flexible site configuration, to provide safe, efficient, year-round service.

- ◆ Custom Configured To Meet Your Needs
- ◆ Remote (unmanned) Stations
- ◆ Cardlock or Keylock Systems
- ◆ Easy to Maintain & Monitor

**Please Note:** illustrations are examples only. Since each Envirotank is customized to meet customer specifications, the size and configuration of actual tanks may vary.

## RETAIL SERVICE STATIONS

### Envirotank Benefits

- ◆ **Mobility.** AGI Envirotanks are designed to allow for relocation. This means that if your Retail Service Station is no longer needed at one location, you can move it to another location. You can also expand your site to meet increased needs or partially dismantle it in response to reduced needs ... all at an affordable cost.
- ◆ **Risk Management.** With Envirotanks, your investment is never *buried*. Unlike underground tanks, Envirotanks can be moved, reused or sold. So your investment is not lost if your site is dismantled or relocated ... it becomes a saleable asset.

### Optional Features

AGI offers customers an unlimited range of options in site design, including:

- ◆ samples of potential site designs
- ◆ integration of customer's visions into site design
- ◆ working individually with customers to design a site that meets your specific needs.

Depending on your service station capacity, AGI can:

- ◆ mount dispensers virtually anywhere ... on the pump stand of small vertical tanks, on the side of multi-compartment tanks, on either end of horizontal tanks
- ◆ run underground piping from an existing or new island to an AGI tank
- ◆ install a loading rack on the opposite side of the tank
- ◆ use existing customer equipment, as required.

Other options include:

- ◆ variety of lighting packages
- ◆ electronic and/or mechanical level monitoring
- ◆ portable bollard system, designed & manufactured by AGI
- ◆ standard retail dispensers with options such as cardlock and keylock.

## the **BETTER** **WAY**

**AGI not only custom manufactures tanks, they customize their services to meet individual needs.**

- ◆ AGI works with your planning & installation contractors to deliver the most efficient system for your site.
- ◆ AGI backs its products with complete customer support services, including: site evaluation and configuration, decommissioning, installation and operational start-up by an experienced crew.
- ◆ AGI Envirotanks meet all environmental, fire and ULC, UL or API standards.\*

AGI Envirotanks provide a safe, reliable, and cost-effective means of fuel containment and storage for retail service stations.

**Call toll free to discuss your needs: 1-800-746-6646.**

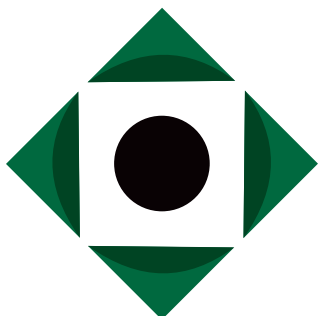

**Manufacturer's Note:**

AGI manufactures a wide range of products to meet a variety of tankage requirements. Ongoing improvements in product design may result in changes to the dimensions & features listed. The Manufacturer reserves the right to make such changes without prior notice.

\* Final acceptability of any AST device or site is determined by local fire and/or environment authorities.
